All dogs used in my breeding program have had their hips and elbows certified through OFA. Their eyes are cleared annually by a board certified ophthalmologist. They also have had the heart checked by a board certified cardiologist. My goal is to produce a healthy structurally correct puppy with correct "Golden Temperament". I personally look to place my puppies into homes where they are going to be in the house and part of the family. Whether they are being placed as a potential show dog or as a family companion, my goal is to breed the temperament and character that is the hallmark of this breed. Gentle, Friendly and Easy going. I also strive for a temperament that will be versatile for the show, obedience ring and or the field. Your assistance in completing this questionnaire will help me place the right puppy in your home. All information is kept completely confidential. Thank you for your cooperation and your interest in my dogs.
